INTRODUCTION

A4TC-2022 is the second edition of artuminate's architecture thesis competition.

Architecture thesis is the ultimate yet the preliminary test of the student being molded as an architect, the initial years that contribute to forging a designer that eventually formulates a collaboration of all the wisdom accumulated over the academic years, the inventive years which birth the composition of the incomprehensible ideas, known as the architecture design thesis.

A4TC is an international architecture thesis competition that aims to promote the amazing ideas nurtured with extensive research and thoughts. An acknowledgment of the efforts and creativity presented as the Architecture thesis by the future of architecture.

A competition designed to present your unimaginable problem-solving architectural ideas on a global scale. A4TC is considering the architectural thesis of the past five years (2017-2022).
